over 300 award winning photo. Judge su ISPWP, This is reportage, masterofwedding

We are Adriano & Simona.  
We love the colours, the energy  
and atmosphere of wedding  
and we focus on every single  
moment and person  
who attends the event

every shot not  
taken is a  
moment that  
will never  
come back

our documentary visions make us always  
present even in front of simple things

we are always in pursuit of beauty

For us is important to be part of the event as if we were guests

We take around 10.000 photos and deliver our selection of around 800 photos within 20 days.

In these years couples have given us the honor of shooting in different parts of the world.

we are fascinated by the details ...

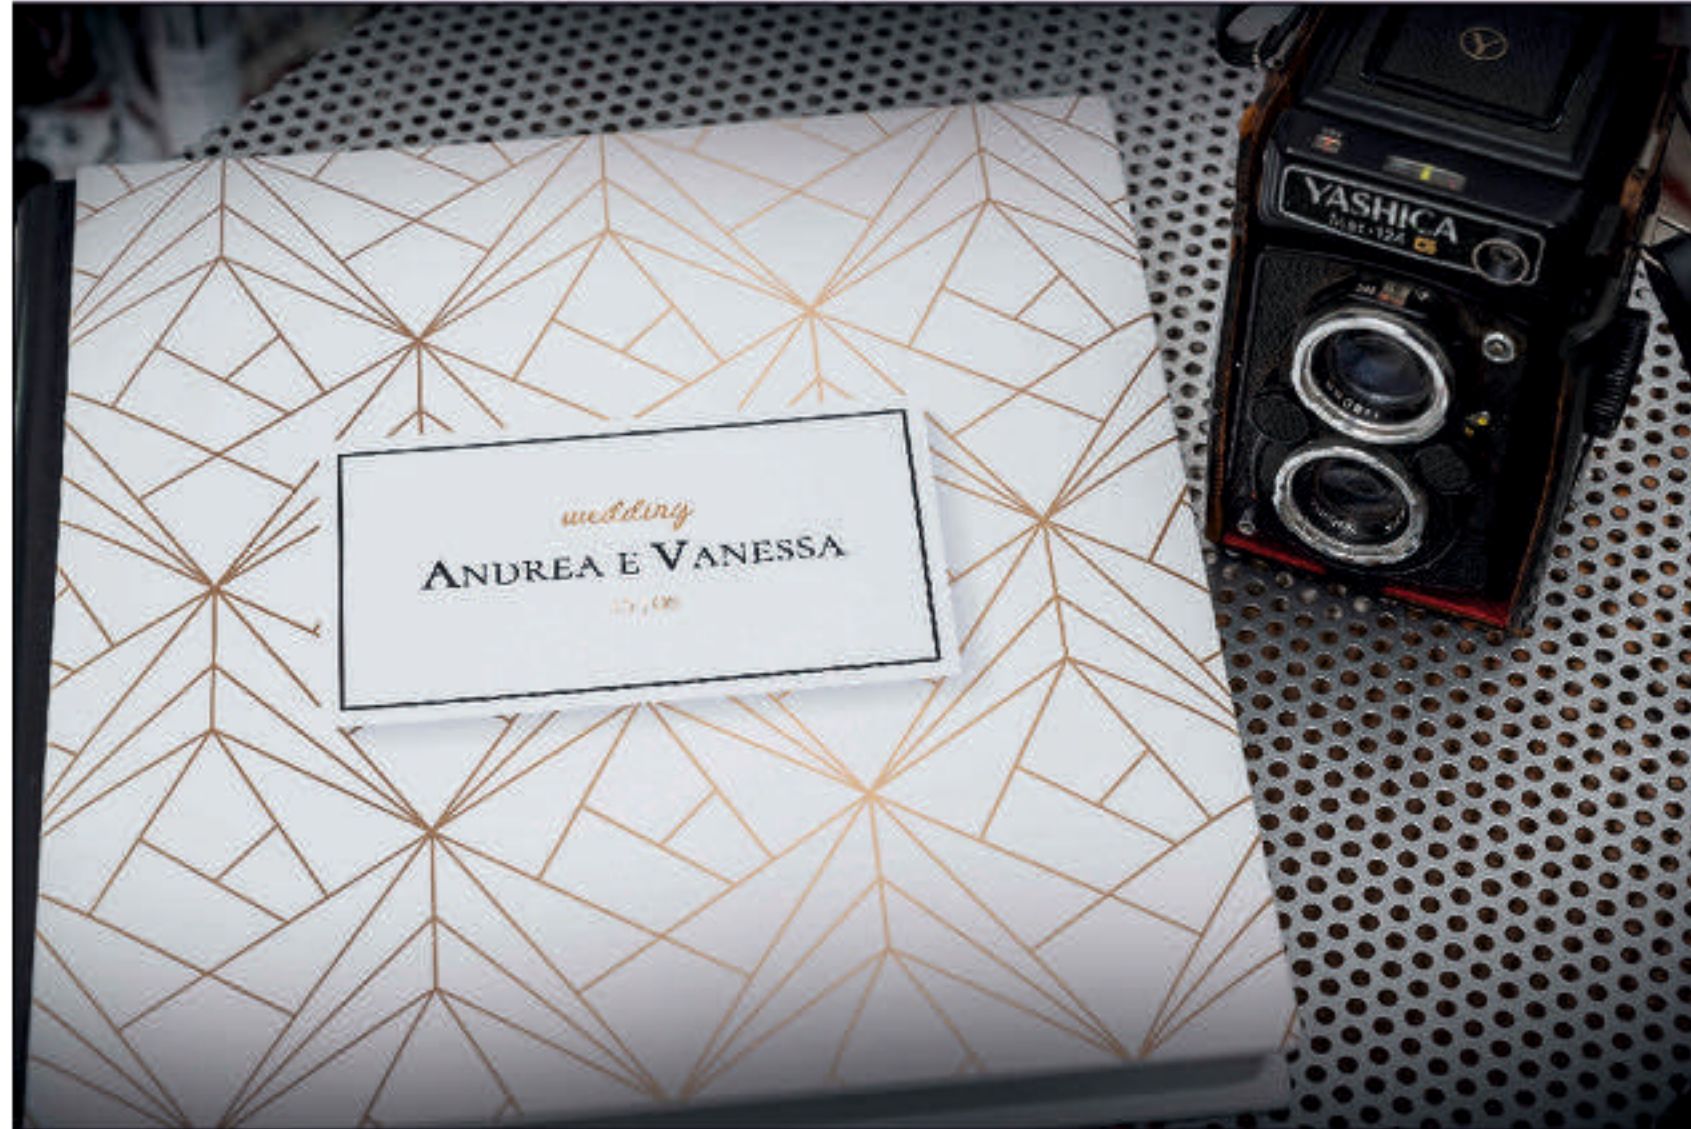

we create classic  
albums and book  
in collaboration with  
important European  
laboratories
